

EDI BRIGHTPEARL CONNECTOR

The perfect EDI & E-Commerce tool to complete your order processing operation

Combine the BEST in EDI with the BEST in retail management, improve workflow and save hours of time daily with the integration of Brightpearl and eZCom's Lingo for EDI.

OUR FEATURES

System Integration

eZCom's fully integrated EDI Connector for Brightpearl seamlessly blends inventory management, fulfillment and accounting with complete EDI functionality giving you the best, most integrated solution available.

Advanced Dropshipping

Our Lingo software is built for Drop Ship, serving as your connection portal to EDI retailers, e-commerce stores, FedEx and UPS, 3PL providers, and your own internal systems.

EDI Compliance

Lingo lets you automate many processes to prevent the errors that manual entry creates, and built-in validation checks help you stay compliant.

Automate & Validate

Manual data entry can create mistakes — costly ones. We automate your order processing to dramatically reduce them.

EDI FOR OMNICHANNEL

Flexible and scalable for the omnichannel spectrum, drop ship, brick and mortar, online or a combination, eZCom's EDI Connector for Brightpearl seamlessly blends inventory management, fulfillment and accounting with compliant, retailer-specified documents and requirements.

WHY CHOOSE US?

- ✓ Fully automated inventory feeds from Brightpearl direct to EDI retailers
- ✓ Full integration support to match your workflow preferences from eZCom
- ✓ EDI orders automatically update Brightpearl inventory
